Notes:

1/ Beginning Balances of Appportionments and OA may not match. See notes 2 and 3.

2/ Appportionments represent the amount of federal funding based on formula. It is not unusual for appportionments to exceed OA, resulting in excess appportionments that may not be obligated. Over the multi-year life of the federal transportation act, appportionments may accumulate but cannot be utilized unless Congress has approved a matching amount of OA. There is no guarantee Congress will provide the necessary OA to go with it needed to fully utilize appportionments. See notes 3 and 5.

3/ Obligation Authority is the amount of authorized appportionments which Congress allows states to obligate in an individual year. This is the amount the federal government will reimburse.

4/ Action Abbreviations: AUTH = New Authorization; CONV = Conversion from Advanced Construction; FV = Final Voucher; MPA = Modified Project Agreement.

5/ The actual ratio of OA to Appportionments is 93.5% for FFY10. However, for the purposes of June 2010 restoration of rescinded appportionments only, ADOT credited ledgers using a ratio of 100% on a one-time basis to enable COGs/MPOs to fully utilize their carried forward appportionments.

6/ Surface Transportation Program funding is distributed to Arizona's rural COGs and MPOs based on the percent of the State's total population each COG/MPO represents (according to the 2000 Census), as shown on the "STP Distribution" worksheet in this file. If applicable, this figure represents the sum of all sub-allocated funds.

7/ Restoration is the amount required to make Appportionments equal to OA as of October 1, 2009.
